LAGCC LOGO Updates

Standard Square-Preferred

HORIZONTAL LOGOS

Use when your space is horizontal. The square version is preferred, but when you need to make the logo small and your space is horizontal, use these. The black letters version is preferred, but if your background is dark, use the white letter version. Use the CUNY lockup versions when you need to display the CUNY logo with the LaGuardia logo.

PLEASE NOTE: LaGuardia Community College strictly limits the use of its college logo on materials for internal and external use. Third parties must request permission for use by contacting the Communications and External Affairs Division (Edward Hollins at ehollins@lagcc.cuny.edu). Any adjustments to the college logo are not permitted. Use of the logo by members of the college community must be followed by using the defined Logo Branding Guidelines.
